LOWER AMWELL COAL SELLS FOR $350 PER ACRE

Deals involving the sale of from 1,500 to 2,000 acres of coal in the vicinity of Ten Mile, Amwell township have recently been consumated. The prevailing price was $350 per acre, although a tract or two, it is reported, were purchased at $325 per acre. Not all of the coal was sold to one individual or firm. It is understood that eventually the property will be consolidated under one ownership, a concern subsidiary to the Pennsylvania railroad. The tracts sold are being surveyed at present, preparatory to making abstracts.

KILLED WHEN MOTOR CYCLE HITS AUTO

William Phillips, colored who lived at 1212 Highland avenue, Monessen, was instantly killed in a collision between a motorcycle which he was driving and an automobile about 2 o'clock Sunday morning. The accident happened on the roadway between Monessen and Webster about 20 yards north of the Iron City mine tipple.

Phillips had a companion, Harry Reaby a white man, riding in a sidecar and it is said the cycle was running at a high rate of speed. At a point north of the coal tipple Phillips collided with an automobile coming toward Monessen and driven by William Neary, who had William Huston and Roland Todd riding with him The motorcycle hit the hub of the front wheel of the auto and Phillips was hurled against the side of the machine h ead first and instantly killed. Neary, the driver of the auto had his arm broken while the machine plunged into the bank, badly damaging it. His companions however were not injured.

The motorcycle ran on a short distance and then ran into the bank, Reaby, the occupant of the sidecar receiving several broken ribs. A passing car was haled and the dead man taken to the morgue at Monessen. Reaby was also taken to Monessen where he was given medical attention.

HOLD WOMEN FOR THROWING PEPPER

Alleged to have thrown red pepper in the eyes of two policemen of Monessen who were attempting to maintain order in the foreign section, three women have been held for court One of the policemen, George A. Brandes, is unable to return to duty, his eyes having been severely burned. Patrolman Patrick O'Keefe, the other officer, was not seriously hurt and is on duty.

Arrest Washington County Whiskey Thief in France

Word has been received by Washington officials of the arrest in La-Havre, France of Agostino Spinozza, one of the principals in the charge of stealing 32 barreels of bonded whiskey from the Vandergrift Distillery, Inc., during the early part of this month. No word has been received as to the whereabout of his confederate, Adam Santori, and his movements from the time when he was presumed to have boarded the French liner are shrouded in mystery.

Spinozza is being held by the French authorties on the charge of evading the emigration laws, and it is hoped by the United States government officials that he can be brought back to this country on the same charge. If this is not possible extradition papers which are in course of being drawn up, will beserved by United States District Attorney E. Lwiry Humes of Pittsburg.

The whiskey at the time it was stolen had a valuation of $18,000. The South brothers, owners of the distillery, will in all probability push the case and when it comes up before the Washington county courts it should create considerable interest, mainly on account of the case extending across the Atlantic ocean to France.

RILEY RECEIVES LIGHT SENTENCE

Fritz Riley, who claimed to have been a speed officer of North Belle Vernon last summer, pleaded guilty to having shot Stewart Nelson of Gibsonton, on the state road near North Belle Vernon and wounded him in back of the neck. Nelson was driving in the direction of West Newton when Riley and two other men on a motorcycle and a side car came along and demanded him to stop. Riley represented himself to be a speed officer and said that Nelson was exceeding the speed laws.

Nelson, thinking that these men were highwaymen, started his car, but had gone but a few hundred feet when they followed him. Riley firing through the rear end of the machine shot Nelson in the neck. The jury found t he defendant guilty of simple assault and battery at the recent term of criminal court. Judge McConnell sentenced him to pay a fine of $1, the costs of prosecution and undergo imprisonment in the county jail for 40 days.

BIRKEN'S JEWELRY STORE WAS ROBBED

The jewelry store of I. Birken at 522 McKean avenue was entereed some time during the night and a quantity of goods taken. Entrance was gained by the thieves breaking a rear c ellar door, and gaining access to the storeroom by forcing a door which led from the first floor to the basement. The rear door was also opened evidently as the thieves were leaving the building. Mr. Birken missed a number of gold handled pen knives, a couple of sets of earrings and lavalliers. A tray containing the pen knives was found in the rear of the stores. No revolvers were taken, nor were there any other article secured by the robbers, as far as Mr. Birken could ascertain. The police were notified this morning and are making an investigation. This is the second robbery in town within a few days and it is the second time the Birken store has been robbed within the past three months

OPEN DRIVE ON CONTAGIOUS DISEASES

Dr. Thomas E. Finegan, state superintendent of public instruction has sent notices to all boards of school directors on how to control and prevent communicable diseases, with orders that they be enforced.

The suggestions, prepared by Dr. C. K. Strode, chief of the division of school hygiene, in the state department of health, outlines sanitation of schoolrooms, duties of the parent in allowing sick children to attend schools and functions of the truant officer in hunting down all cases of absenteeism in order to learn where the hidden cases of communicable diseases might be. Special stress is laid upon the importance of reporting any sickness of school children.

CONDITIONS REPORTED VERY QUIET IN DONORA AND MONESSEN

STRIKE IS REPORTED BROKEN IN NEW CASTLE

The backbone of the strike has been broken in New Castle, according to steel officials. More men have returned to work and steel officials claim that, except for a shortage of labor, the plants are not affected by the strike. Many foreigners are leaving t hetown and are looking for work elsewhere, while other workmen are coming into New Castle and applying for work. Pickets at the plants have been withdrawn so that loyal workmen are having no difficulty in entering and leaving the plants.

INTERESTING TALK ON ARMY SERVICE

Addressing the evening congregation of the First Presbyterian church on Sunday, Major H J. Repman left no doubts in the minds of his hearers as to the ability and pluck of the American soldier He had nothing but praise for our men, and he had ample opportunity to observe them under all circumstances They were courageous, cool-headed, quick thinkers and just as quick to act; respecteed by the French people and patient in suffering

American ingenuity, push and skill were a never failing source of surprise to the French Eighty miles of track laid in 72 days; American locomotives hoisted out of the hold of o'cean going s teamers, unpacked and under steam in less than two hours were wonders the natives could hardly grasp

With many keen observations of customs in the different parts of France. thrilling experiences and many incidents humorous and pathetic, the Major closed his talk with his observations of the Y. M. C. A. and the Salvation Army. They both did excellent work, and their workers were to be found right on the firing line carrying on their work of mercy

Said That American Workmen Are Lining Up To Return at Donora

DONORA MILLS PAYING TODAY

Reports from Donora and Monessen this morning indicated that both towns are very quiet. At Monessen this morning not even a State policemen was visible, nor were there any men around the entrances to the various mills. Affairs were unusually quiet and this condition of affairs was remarked abont by many of the people of the town.

In Donora very much the same condition existed this morning. State police were on duty but no men were seen on the streets, nor were there any men around the mill entrances. This afternoon at 2:30 the mills began paying off the men, and this created a little stir, but nothing unusual for pay day. It is said the mill officials will interview every man as he is paid - as to his intention, whether he will return to work or prefers to remain out on strike. It will be a case of "hire or fire."

One report from Donora stated that an additional number of men entered the mills this morning over and above those who reported on Monday. It is further stated in this report that the American workmen are lining up in favor of returning to work. Quite a number of them have already reported and it is said that others have said they will do so and that all of them are expected to be back at their usual occupations before the week is over.

From Monessen comes the report that indications point to an early resumption of the mills, although so far as known no men have yet entered any of the plants. However, both in Donora and Monessen the belief is gaining strength that the plants of both towns will be in operation before very long.

DISMANTLE AIRPLANE AND SHIP TO DAYTON

The Lawton airplane, which landed near Connellsville last week, while enroute from Washington, D. C., to Dayton, Ohio, was on Monday shipped on three railroad cars to Dayton where it will be reassembled to San Francisco. The machine was damaged when forced to light in Fayette county b ecause of high winds.

FIRE EQUIPMENT

The need of additional fire equipment for Charleroi, and particularly in the way of a pump attachment for the fire truck, was made manifest at an early hour Monday morning.

The local fire company was summoned by the Warner-Yough Coal company in an effort to save the tipple of their Rider mine, which had caught fire about two o'clock in the morning. The fire company responded quickly, and it is the testimony of the mine officials that the truck was on the scene within ten minutes after being called Arriving on the scene however the firemen found themslves unable to render any assistance because of the lack of water pressure and because their truck was not supplied with a pump. They did the best they could under the circumstances and did valiant service in trying to save property, but it was not until the Donora fire truck was summoned that it was possible to make any headway with the fire.

Due to the foresight of Capt. Gustav Schaaf, fire chief of that borough, the Donora fire truck was supplied with a powerful pump, to supplement the water pressure in that town when necessary, and likewise to take care of the hill district in the steel borough, where the water presure is quite weak

Within leess than 15 minutes after the Donora truck had been placed in action the fire was under control, and a few minutes later the blaze was entirely extinguished. Of course a great deal of property had already been destroyed, but the loss would have been much greater had it not been for the Donora fire truck

Mr. Mullen, superintendent for the Warner-Yough company, said that if the Charleroi truck had been equipped with a pump, the fire would have been put out in a few minutes, and the coal company would not have lost a single day in the running of coal. As it is, the coal company must spend a large sum of money in making repairs, as well as losing the profits to which they would have been entitled while the mine is idle,while the workmen, almost 150 in number, will lose from ten days to two weeks work, the total losses footing up possibly more than $20,000. Practically all of this could have been saved had the local fire company the equipment they have been wanting for so long, and which should be provided if the organization is to do the work that is expected of them

Fire Chief Fleming has made numerous requests, and also has made a number of solicitations with a view of increasing the equipment of the local plant, that it may be up to date. So far his ambitions in that direction, as well as those of the fire company have not been realized, but all of them hope that ultimately not only the people of Charleroi, but those of the surrounding communities which call upon the local company for aid in time of trouble, will appreciate the need of betterments and provide them at once

The department would have trouble with any fire that might occur in the hill district of the borough because of the water pressure, which in some parts of the hilltops is quite weak. The time to make these improvements is the present, so that the fire company will be in shape to take care of any emergency that may arise, either in or outside the borough.

THE OLD HOME TOWN

When the old home town needs a boost, financial or otherwise do we, fellow citizens, go to the big city merchant prince the millionaire owner of mail order stores for a "lift," a helping hand?

Not so you could notice it.

We—all of us—go to the local merchant, the man, our neighbor and friend, who sells dry goods, groceries, shoes, hardware, furniture, right here in the old home town.

That's the man we look for when we want a contribution for a lawn party, a festival or a fair.

That's the man we ask to help us buy a new church organ or uniforms for the baseball club.

That's the man who pays taxes [illegible] a little [illegible] may help finance [illegible] town and county government, [illegible] feels and knows the live interest [illegible] the world [illegible]

For he's a home town [illegible] a proud of the home town [illegible]

What do you think [illegible] "Uncle Sam" would say if we asked him to do for this town what is done willingly and cheerfully year in and year out by every one of our home town merchants?

Why the mail order fellow would laugh at you.

He's mighty willing to fire a catalog at you, but that's all. Any conveturing done is done by yourself and the mail order man is on the receiving end—always. He may, after he has accumulated some millions of small town dollars, present a library, a park or a bathing beach to the large city where he spends the dollars he coaxes from small towns. You know, mail order houses would starve if they had to depend upon doing business with the people who live in the large cities.

It is the small town, the agricultural community and the farms that fatten the mail order bank accounts. And by so doing they bite the hand that feeds them, the home town merchant. Let us keep this in mind and weigh it well when pretty pictures and tempting words in amail order catalog appeal most alluringly.

MONESSEN HITS AT CHARGES MADE

The Monessen Board of Trade last week took exception to the testimony of John Fitzpatrick before the Senate investigation committee of which Senator Kenyon is chairman and which is inquiring into the causes leading up and incidental to the steel strike At this meeting it was decided to send a telegram of protest to Senator Kenyon and this was done last week, and reads as follows:

"Whereas, John Fitzpatrick of Chicago, in his testimony Thursday before t he Senate committee investigating industrial conditions, made sweeping statements and generalizations about the steel industry of Western Pennsylvania and the living and working conditions of employes that are not borne out by the facts as known by those living in these communities; and

"Whereas, in his recital before the committee he painted a lurid picture of conditions as reported by him, declaring there was a reign of blood and iron, with deputy sheriffs, paid gunmen and Pennsylvania constabulary as its chief exponents; therefore

"Be it resolved, that the Monessen Board of Trade of Monessen, Pa, an organization now over 10 years old and comprising more than 250 members from among both business and mill men, go upon record condemning such misrepresentation of actual conditions as misleading to the public and damaging to workmen and employers alike; it is the sense of this body which always has been actively concerned in living conditions, uplift movements and charity work in the community, that the workmen in the steel industry have been better paid than other occupations for similar service and that they have lived just as well as they knew how or desired; and further,

"Be it resolved, that this organization is in a position to prove that there has been no show of force, display of arms of wielding of power other than was necessary to enforce law and order as interpreted by Governor William C. Sproul and laid down in a proclamation by our burgess; and we hereby invite the most thorough investigation of working conditions existing locally and pledge our support and any assistance desired."

THOUGHT ONE CLEAN SHIRT ALL HE NEEDED

"Ten years ago I was reduced to a mere shadow. I was yellow as a gold piece and would often be doubled up with most excruiating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try Mayr's Wonderful Remedy and it helped me at once. What is more, I have been well ever since. A friend said he thought one more clean shirt all I would ever wear." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convnce or money refunded. At druggists everywhere.

It is always interesting to listen to the statement of a friend, especially when you know that he is sincere and honest in what he says. Added interest is created in a statement coming from a man of standing and unquestioned integrity. Such a man is Mr. Thomas Askeem of No 1118 Railroad street, Duquesne a well known Insurance Agent, who has a wide acquaintance in local business circles in Pittsburg He said:

THOMAS ASKEM

"I have been under treatment for the past year for stomach trouble and my stomach was in such a weak condition that I could hardly keep down the lightest kind of food; I was troubled with gas, bad headaches terrible indigestion and pains in my back; I was very nervous and scarcely ever able to sleep at night and in the morning would be all tired out and unfit for my work I had no ambition or energy whatever. Nothing I had taken did me any good until I started to take your Ten-Herbs, and now I am feeling fine; I sleep well and amable to eat my meals I am greatly improved in every way since taking Ten Herbs"

Ten-Herbs clanses, strengthens and revitalizes the entire system It clears the blood of poisons and impurities, puts the lazy liver to work regulates the bowels, strengthens the kidneys and tones up the digestive organs It sharpens the appetite and promotes sound, restful sleep.

CLUB OFFICERS ARE CAUGHT IN DRAGNET

How the Federal authorities of the Pittsburg district intend to deal with clubs accused of violating the war-time prohibition law was revealed on Monday when the president, secretary and steward of the Russky-Slovak Beneficial Club of Monessen were held for the November term of nited States District Court by United States Commissioner Edward F. Duffy. They were held in $1,000 bail for their appearance at court. The three men were arrested Saturday night last by Deputy United States Marshal W. B. Herrington, following an investigation by Federal agents. The investigation revealeed, it is alleged, that liquor containing more than one-half of one per cent of alcohol by weight was being dispensed at the club.

The case is the first locally of a so-called "liquor" club caught in the Federal campaign against violators of the war-time order.

ARE DIVIDED ON SUNDAY OBSERVANCE

There appears to be a division of sentiment in Fayette county among church members as to the playing of baseball on Sunday. Rev. Martin G. Snively, pastor of the Masontown Brethren church, declares he does not intend to antagonize Sunday baseball and believes the best way to take desecration out of Sunday games is to introduce a 15 or 20 minute sermon in the middle of the game. The minister says he has approached the men in charge of the Sunday games in Masontown with a request that the games be stopped when 4 1-2 innings have been played and that he be permitted to walk into the middle of the diamond to deliver a sermon not occupying more than 20 minutes It is probable that his request will be granted

At the meeting of the Fayette County Sabbath School Association held in Uniontown last week the following resolution on the Sunday question was presented and adopted: Resolved, That a law upon the statute books not enforced breeds Bolshevism and anarchy, therefore would it not be wise for the district attorney of Fayette county to check the violations of the laws, especially such as Sunday baseball and open stores

UTILITY

or what an Electric Cleaner will do, is the most important thing to consider. The machine that will do the most thorough work, the easiest, and without injury to your rugs etc., is the one to buy.

THE APEX ELECTRIC SUCTION CLEANER

weighs but 10 pounds. The design of the APEX nozzle permits it to poke under low furniture. It can be used on mattresses, upholstered furniture etc., without attachments.

The APEX used a few minutes each day keeps the house refreshed.

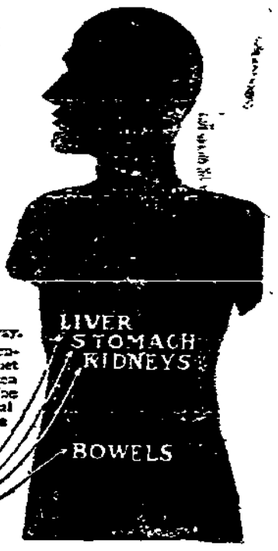
Want to Feel Just Right?

Take an NR Tonight

JUST TRY IT AND SEE how much better you feel in the morning. That "logey," headachy, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.



And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best.

Study in Strength.

The muscles have their periods of development and decline. The lifting power of a youth of seventeen is 280 pounds; in his twentieth year this increases to 320 pounds, and in the thirtieth year it reaches 365 pounds. By the fortieth year it has decreased eight pounds; at fifty the figure is 330 pounds.

Chinese Love Horses.

China is one of the last of the nations of the world to adopt and enjoy the motorcar. Indeed, the conservative Chinese shrink from anything that seems to cast any aspersions upon horses, for equines have played a big part in tradition, history and the life of that mysterious land in the far East.

Advantage of Travel.

Travel is a great educator and we noticed in the conversation at luncheon yesterday that a little dab of warmed-over codfish, pieced out with one egg to make it somewhere near enough, had become casserolette of Newfoundland cod aux oeufs.—Ohio State Journal.

Use for Electric Fan in Closet.

An electric fan has not fulfilled all its obligations when it has cooled your house. Set it revolving in a dark, airless closet; it will bring in its wake ventilation, if the door is left open during the process. In addition it will dispossess the moths.

So It Goes.

The Lowry City Independent has an idea that the old fellow who became rich by burning the midnight oil doubtless now has a son who is prodigal with the midnight gas.—Kansas City Times.

Strong Family Resemblance.

"Contentment," remarked Shinbone, "am a mighty fine thing; de only trouble 'bout it is it's kin' o' hahd to 'stinguish from jes' plain laziness."—Boston Transcript.

Truly a Big Mistake.

"A man dat's allus in trouble," said Uncle Eben, "is mighty liable to make de tremenjus mistake of bein' proud of de fact."

Camel Cigarettes

CAMEL cigarettes win smokers from the start because the expertly blended choice Turkish and choice Domestic tobaccos make possible Camel's delightful mellow-mildness with that all-there "body."

Camels meet your fondest cigarette fancies in so many ways. Their flavor is unusual and refreshing; and, they permit you to smoke as long as you will without any unpleasant cigaretty aftertaste or unpleasant cigaretty odor. They're simply a cigarette delight! That's the way you'll put it!

You'll find Camels good all the way through. It is a fact, you'll prefer Camels expert blend of choice Turkish and choice Domestic tobaccos to either kind of tobacco smoked straight! And, Camels may be smoked liberally without tiring your taste.

To know Camels best compare them in every possible test with any cigarette in the world at any price!

18 cents a package

Camels are sold everywhere in the distinctively appealing packages of 20 cigarettes; or 10 packages (200 cigarettes) in a glassine-paper-covered carton. We highly recommend this carton for the home or office supply or when you travel.
